

# SAWPA DCI Program: Recommendations for Technical Assistance Funding and Support

11/20/2019

Total Project Cost: Funding Requested TA Allocation Project Sponsor: Project Title:

Proposals Recommendations for Funding					
1	\$275,000	\$275,000	\$175,000	<b>Box Springs Mutual Water Company</b>	<b>Rehabilitation, Removal or Replacement of Water Storage Reservoir with SCADA</b>
Note: Recommendation of a partial funding award				Project Planning Activities, Pre-construction Activities	Evaluate Storage Capacity and Demands, Storage Facility Improvements Design, Identify Easement Needs
2	\$500,000	\$500,000	\$200,000	<b>City of Colton</b>	<b>Two New Potable Wells with Generators</b>
Note: Recommendation of a partial funding award				Project Planning Activities, Pre-construction Activities	Draft Preliminary Engineering Report to investigate two new wells, Initial Topographic and Mapping Survey, Well Investigation, Geotechnical Report
3	\$500,000	\$500,000	\$100,000	<b>Devore Water Company</b>	<b>New Reservoir, Distribution System Upgrades and New Well</b>
Note: Recommendation of a partial funding award				Project Planning Activities	Evaluate water demands and water sources, Evaluate Storage Capacity and Demands, Storage Facility Improvements Design, Identify Easement Needs
4	\$1,000,000	\$300,000	\$150,000	<b>Idyllwild Water District</b>	<b>Water Treatment Plant Upgrade with SCADA</b>
Note: Recommendation of a partial funding award				Project Planning Activities, Pre-construction Activities	Engineering Report, Technical Design and Specifications, Air Quality Studies, Environmental Reports, Engineering Drawings, Plant Design, Public Outreach
5	\$300,000	\$300,000	\$100,000	<b>Marygold Mutual Water Company</b>	<b>New Well and Generator Project</b>
Note: Recommendation of a partial funding award				Project Planning Activities, Pre-construction Activities	Improve WQ with modifications and/or rehabilitation to existing wells, evaluate potential of a new well location
6	\$400,000	\$400,000	\$25,000	<b>Riverside Highland Water Company</b>	<b>Ion Exchange System</b>
Note: Recommendation of a partial funding award				Pre-construction Activities	Ion Exchange technology evaluation and design
7	\$411,000	\$411,000	\$250,000	<b>Terrace Mutual Water Company</b>	<b>New Potable Well</b>
Note: Recommendation of a partial funding award				Project Planning Activities	Improve WQ with modifications and/or rehabilitation to existing wells, evaluate potential of a new well location
8	\$935,000	\$435,000	\$200,000	<b>Eastern Municipal Water District</b>	<b>Quail Valley Sub-Area 4 Septic to Sewer, Phase 1 Planning Analysis</b>
Note: Recommendation of a partial funding award				Project Planning Activities, Pre-construction Activities	Proposed conversion of septic to sewer Project, Initial Feasibility Study, Environmental Due Diligence Effort, Final Feasibility Report, Quail Valley Sewer Backbone Extension Analysis in Goetz Road
9	\$2,900,000	\$277,990	\$277,990	<b>City of Rialto</b>	<b>Bohner/Banyon Septic to Sewer Project</b>
Note: Recommendation of a full funding award				Community Capacity Building, Project Planning Activities, Pre-construction Activities	Planning and limited preliminary design in support of the proposed conversion of septic to sewer Project
10	\$450,000	\$450,000	\$100,000	<b>Orange County Water District</b>	<b>Watershed Education and Field Trip Program for Disadvantaged Community Elementary School Students (v. 2)</b>
Note: Recommendation of a partial funding award				K-12 Initiatives	Water education & field trip program, Program development and pilot testing, Develop watershed displays & preparation of materials, Outreach to schools
11	\$12,000,000	\$500,000	\$100,000	<b>City of Fullerton</b>	<b>Fullerton's Water Future - Ensuring Delivery of Clean, Safe Drinking Water</b>
Note: Recommendation of a partial funding award				Project Planning Activities, Pre-construction Activities	Develop interim approach and long-term strategy for addressing VOCs and PFAS treatment and reduction in local groundwater resources
12	\$1,250,000	\$500,000	\$50,000	<b>Huerta del Valle</b>	<b>Feasibility study for reconnecting and enhancing water resources for greater community and environmental benefit.</b>
Note: Recommendation of a partial funding award				Community Capacity Building, Project Planning Activities, Pre-construction Activities	Feasibility study to investigate the installing wells on two park sites to make available irrigation water for community farm projects that service DA communities
13	\$630,000	\$500,000	\$100,000	<b>City of Santa Ana</b>	<b>Washington Avenue Well Project</b>
Note: Recommendation of a partial funding award				Pre-construction Activities	Washington Ave Well Project will pump groundwater into the City's existing water distribution system

## Proposals NOT Recommended for Technical Assistance funding, but recommended for consideration within other DCI Program Activities

14	\$447,720	\$447,720	no award	<b>Orange County Environmental Justice Education Fund (OCEJEF)</b>	<b>Building Community Capacity with PhotoVoice: Documenting Orange County's Disadvantaged Community Water Concerns &amp; Communicating with Decision-makers</b>
Note: Community Outreach was recommended to be considered within the existing DCI funded Community Water Education Activity				Community Capacity Building	Preparation & Planning, Disadvantaged Community Outreach (40 participants from Anaheim and Garden Grove), Workshop Implementation & Evaluation Forum Implementation, Workshop Implementation & Evaluation
15	\$6,000	\$6,000	no award	<b>Box Springs Mutual Water Company</b>	<b>Training for System Water Operators</b>
Note: Operator Training was recommended to be considered within the existing DCI funded Water Agency Training Activity				Operator Training	Staff training
16	\$5,000,000	\$393,375	no award	<b>San Bernardino Valley Municipal Water District/Inland Empire Resource Conservation District</b>	<b>Louis Rubidoux Nature Consortium, Tribal Programming and Engagement</b>
Note: Tribal Programming was recommended to be considered within the existing DCI funded Santa Ana Watershed Tribal Advisory Committee				Community Capacity Building, K-12 Initiatives	Tribal program development for Louis Rubidoux Nature Center (priorities, objectives, master planning) including working with other project partners to add Native perspective to their programmed activities

# SAWPA DCI Program: Recommendations for Technical Assistance Funding and Support

11/20/2019

**Total Project Cost:**      **Funding Requested:**      **TA Allocation:**      **Project Sponsor:**      **Project Title:**

**Proposals NOT Recommended for DCI Program Technical Assistance funding**

17	\$498,478	\$498,478	no award	Mesa Water District	Mesa Water Reliability Facility Outreach Center – Design/Engineering, CEQA and DAC Involvement/Outreach
Note: project not recommended for TA funding				Pre-construction Activities	Water Reliability Facility Outreach Center - planning and design of a state-of-the-art multipurpose community room for water education tours, multimedia educational exhibits, digital displays, and informational signage for tours
18	\$529,000	\$500,000	no award	City of Santa Ana	Recycled Water Use Expansion Project
Note: project not recommended for TA funding				Pre-construction Activities	Expand Recycled Water Use from the existing OCWD's GAP system north into the City to key potential recycled water customers
19	\$10,000,000	\$500,000	no award	San Bernardino Valley Municipal Water District	Lake Rialto Habitat Management and Community Open Space Project
Note: project not recommended for TA funding				Project Planning Activities, Pre-construction Activities	Surveys – planometrics, digital terrain model, land appraisal and title search, Preliminary Design/Feasibility Study, Geotechnical Study, Biological Opportunities and Constraints Investigation, 30% Design with project cost estimate, CEQA and associated technical studies
20	\$500,000	\$500,000	no award	Idyllwild Water District	Wastewater Treatment Plant Upgrade
Note: project not recommended for TA funding				Project Planning Activities, Pre-construction Activities	Engineering Report, Technical Design and Specifications, Air Quality Studies, Environmental Reports, Hydrogeological Reports, Engineering Drawings, plant Design, Public Outreach
21	\$200,000	\$200,000	no award	Marygold Mutual Water Company	Marygold Avenue Water Main and Service Line Replacement Project
Note: project not recommended for TA funding				Project Planning Activities	Engineering Study of water pipes, water service laterals, Calculate costs for new service lines and connections, Research pre-construction design, Easement Study
22	\$25,000	\$25,000	no award	City of Menifee	Quail Valley Sewer Improvements Subarea 9, Phase 2
Note: project not recommended for TA funding				Community Capacity Building, Project Planning Activities	Income survey data, which may allow further planning and limited preliminary design, supports proposed Quail Valley Sewer Improvements Subarea 9, Phase 2 project
