PA 24 COMMITTEE MEMORANDUM NO. 2020.18

DATE: August 4, 2020

TO: Project Agreement 24 Committee
     (Inland Empire Brine Line)

SUBJECT: Inland Empire Brine Line Rehabilitation/Protection Projects
          Construction Management and Inspection Services

PREPARED BY: David Ruhl, Engineering Manager

RECOMMENDATION
That the Project Agreement 24 Committee authorize the General Manager to execute a General Services Agreement and Task Order No. TRC320-01 in an amount not-to-exceed $162,118 with TRC, to provide Construction Management and Inspection Services for the Inland Empire Brine Line Rehabilitation/Protection Projects.

DISCUSSION
The professional services of a Construction Management firm is necessary to oversee construction activities, and provide inspection to ensure both the Euclid Avenue (Reach IVA and Reach IVD) Maintenance Access Structure Rehabilitation Project and the Lower Reach IV-B and CRC Lateral Utility Protection Project are installed according to the plans and specifications prepared by the design engineers.

Staff requested TRC (formerly Vali Cooper and Associates) to prepare a scope of work and budget to provide construction management and inspection services. TRC has provided CM and Inspections services for SAWPA on two previous construction projects (as Vali Cooper and Associates). Their knowledge and experience were invaluable in the completion of the projects. Due to TRC’s previous work with SAWPA they have extensive knowledge of the Brine Line and content of the specifications. By utilizing staff from the previous project TRC will provide the most efficient and knowledgeable staff. Due to the complexity of the Lower Reach IV-B Utility Projection Project (continuous by-pass of Reach IV-B flows, fusion of large diameter HDPE pipe, dewatering within Prado inundation area and installation of watertight HDPE tees) TRC’s experience and qualification will provide the most benefit to SAWPA. A similar by-pass technical specification and the same watertight HDPE tees were utilized on the previous projects inspected by TRC. SAWPA staff will also realize some efficiency due to the utilization of the same web-based document management system. Bringing a new CM firm on board would not be cost effective due to the time associated with bringing the firm up to speed with the specifications and duplication of certain work activities between SAWPA’s recent projects.

SAWPA staff has reviewed the attached scope of work and budget and has determined that it is sufficient to meet the needs of both construction projects.
RESOURCE IMPACTS
Funds are available in the FY21 Budget, Fund 320 to cover the construction management and inspection costs.

Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

11.6 Any dispute which may arise by and between SAWPA and the Consultant, including the Consultants,
its employees, agents and subcontractors, shall be submitted to binding arbitration. Arbitration shall be conducted by a neutral, impartial arbitration service that the parties mutually agree upon, in accordance with its rules and procedures. The arbitrator must decide each and every dispute in accordance with the laws of the State of California, and all other applicable laws. Unless the parties stipulate to the contrary prior to the appointment of the arbitrator, all disputes shall first be submitted to non-binding mediation conducted by a neutral, impartial mediation service that the parties mutually agree upon, in accordance with its rules and procedures.

11.7 During the performance of the Agreement, Consultant and its subcontractors shall not unlawfully discriminate, harass, or allow harassment against any employee or applicant for employment because of sex, race, color, ancestry, religious creed, national origin, physical disability (including HIV and AIDS), mental disability, medical condition (cancer), age (over 40), marital status and denial of family care leave. Consultant and its subcontractors shall insure that the evaluation and treatment of their employees and applicants for employment are free from such discrimination and harassment. Consultant and its subcontractors shall comply with the provisions of the Fair Employment and Housing Act (Government Code, Section 12290 et seq.) and the applicable regulations promulgated there under (California Code of Regulations, Title 2, Section 7285 et seq.). The applicable regulations of the Fair Employment and Housing Commission implementing Government Code Section 12990 et seq., set forth in Chapter 5 of Division 4 of Title 2 of the California Code of Regulations, are incorporated into this Agreement by reference and made a part hereof as if set forth in full. Consultant and its subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement. Consultant shall include the non-discrimination and compliance provisions of this clause in all subcontracts to perform work under the Agreement.

11.8 Contractor’s employees, agents and subcontractors shall adhere to, and comply with, the California Drug Free Workplace Act at Government Code, Sections 8350 through 8357.

In witness whereof, the parties hereby have made and executed this Agreement as of the day and year first above-written.

Dear Mr. Ruhl

The TRC Engineers, Inc. (TRC) team is poised, and ready to assist in overseeing, coordinating, administrating, and managing the Euclid Ave. MAS Rehabilitation and IV-B and C.R.C. Lateral Utility Protection projects.

With our history working with SAWPA on the IE Brine Line Reach V Rehabilitation projects, we are honored to have the opportunity to continue building on our relationship with the Authority and look forward to providing services as part of your CIP.

Project Understanding and Scope of Work
Rehabilitation of the Euclid Ave. MAS structures, and the IV-B and C.R.C. Laterals are required in order to maintain SAWPA’s distribution system.

**Euclid Ave. Maintenance Access Structure Rehabilitation Project**
The project will consist of rehabilitation of five MAS structures along Euclid Ave. by repair and or replace of the T-Lock lining, new epoxy coated lids and outlet flanges and new concrete manhole risers with a full removal of MAS 4A – 0180 and installation of a new pipe connection section. We understand that MAS 4D-0030 and 4D-0060 are located within the ACOE right-of-way and also within a protected habitat requiring additional notification and monitoring coordination requirements. Additional coordination will be required with CALTRANS for traffic control along Euclid Ave.

**Inland Empire Brine Line Lower Reach IV-B and C.R.C Lateral Utility Protection Project**
The project will consist of removal of the 36” HOBAS lined RCP pipe (IV-B) and existing 15” VCP and 16” DIP (C.R.C lateral) and manholes, replaced with approx. 410 LF of 36” HDPE fused pipe, installation of a (3) new 60” MAS structures, and installation of a 18” HDPE pipe and appurtenances. A temporary brine line bypass system will be required in order to complete these improvements. We understand that work within this area of the project will require coordination with adjacent contracts as well as coordination with the ACOE and the City of Corona.

TRC has assembled a team of professionals who are well seasoned in trenchless technology pipeline installation methods and manway access structure construction. Having complete these almost exact activities for SAWPA on previous projects, the TRC team is well versed in your standards and coordinating with engineering and operations personnel. Below is a breakdown of responsibilities for each position outlined in this proposal. Resumes for each of these individuals is also attached.

**Construction Manager:**
- Review plans and specifications for submittal and contract compliance requirements
- Review and coordinate responses to submittals and RFI’s with the Design Engineer
• Review and process change order requests, contract change orders and progress payments
• Prepare and conduct weekly construction progress meeting agendas and minutes
• Review contractor schedule of activities
• Coordinate specialty inspection efforts
• Coordinate and facilitate resolution of site conflicts for efficient resolution as to not affect contractor progress
• Coordinate construction activities with project stakeholders (City of Corona, ACOE and Caltrans)
• Act as SAWPA staff extension and perform any necessary tasks as outlined by SAWPA

Field Inspection:
• Provide inspection of field activities, confirming installation per the approved plans, SAWPA standards and applicable project communication (RFI’s, Submittals, CCO’s, etc.)
• Provide written daily report of activities, including equipment and manpower tracking, incident and installed quantity reporting
• Provide daily photo documentation of construction progress
• Prepare field as-built drawings
• Act as SAWPA staff extension and perform any necessary tasks as outlined by SAWPA

Fee Proposal
TRC’s proposed hours are estimated for the anticipated workload. Our assumptions are based upon the information provided for construction management inspection of the contract along with no delays encountered in the field.
